Linux Basic Commands Assignment

Assignment Part-3

Playing with files

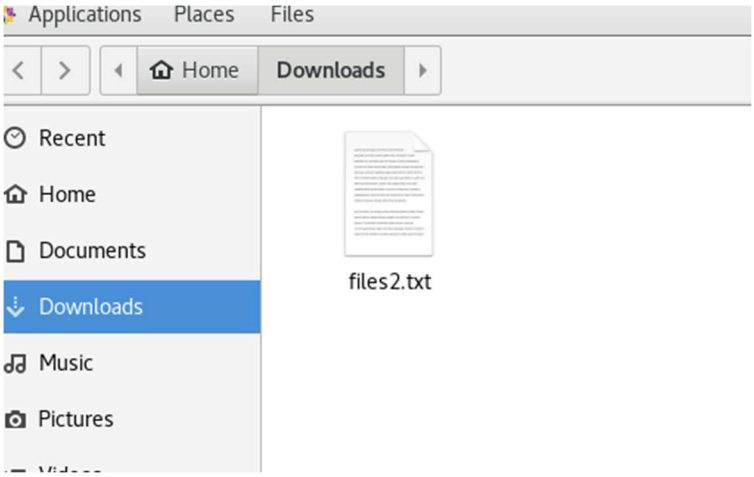
1.created files1.txt and added some data

Used cp files1.txt files2.txt to copy data from files1.txt to files2.txt

```
[saiprasad@localhost ~]$ nano files1.txt
[saiprasad@localhost ~]$ cp file1.txt file2.txt
cp: cannot stat ‘file1.txt’: No such file or directory
[saiprasad@localhost ~]$ cp files1.txt files2.txt
[saiprasad@localhost ~]$ cat files2.txt
this is devpos pro course
[saiprasad@localhost ~]$
```

Moved files2.txt to Downloads

```
saiprasad@localhost ~]$ mv files2.txt Downloads
saiprasad@localhost ~]$
```



4. echo “Hello Iam newline” > files5.txt and echo “Hello Iam newline” >> files6.txt

echo “Hello Iam newline” > files5.txt will overwrite the file files.txt where as “Hello Iam newline” >> files6.txt will add next add Hello Iam newline next to existing text.

5.removed all files using rm command
